

BRITISH  
**ceramics**  
TOWARDS NET ZERO

*The “British Ceramics: Towards Net Zero” sector programme supports ceramic manufacturers in the sharing and adoption of best-practice measures, to continually drive the industry forward towards net-zero emissions by 2050.*

*As a signatory to this member initiative:*

## **Mantec Technical Ceramics**

*is committed to working collaboratively on the decarbonisation challenge, through a range of energy / carbon reduction activities to help deliver low-carbon ceramic manufacturing in the UK.*
